PRODUCT DESCRIPTION

c  US E528271 **UL 325 COMPLIANT**

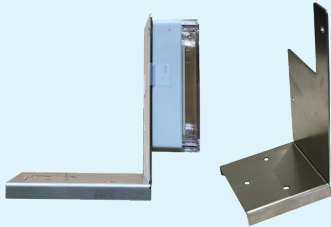

The Max Wireless Edge 900 is tailored for residential, commercial, and industrial gate applications, this cutting-edge solution prioritizes safety. Exclusively compatible with Max Gate Operators, the Wireless Edge 900, in collaboration with the robust Max DSP Controlled brushless motor, ensures an unparalleled quick response time, setting it apart from others in the industry. Distinguished by diagnosing features such as individual indicator lights for every error type, this premier solution brings together advanced technology and ease of use, making it the ultimate choice for those seeking to elevate the safety and efficiency of gate operators.

PRODUCT HIGHLIGHTS

- Logs error types on both the error log on operator and Max Cloud App
- Three frequency channel selections to prevent cross talk with nearby operators, ensuring interference-free operation
- Clearly-labeled individual LED lights for each error type, providing easy identification
- Low latency, making it the fastest reacting wireless edge for enhanced safety in the Market
- Pre-wired device with a pre-installed bracket for simplified installation
